

Morning Memo

Mission: - To foster the wellbeing of the youth through promoting programs that develop Good Citizenship, Community Services and Leadership.

Let's Rock

Alcohol awareness is part of the Ministry of Health campaign work to the public on Healthy Living and combating Non-Communicable Disease that lifestyle and behaviour of individual is the main contributing factor. To this extend Tonga Health has been mandated to partner up with NGO and Government ministries to work together in fighting the rising problems of NCDs.

Alcohol, Tobacco, Drugs, Exercising and eating healthy and nutritious food are the focus area for this work. TNYC have contribute by working with the alcohol awareness to youth as well as working in drugs and substance use area the work with the alcohol awareness is nearly complete and working with the youth village sport team also include exercising program for volleyball team.

The Sopa youth volleyball team have started and registered in the Tonga Fit Gym and have started a very health dieting program including no alcohol and tobacco. At the same time radio talk back show program have been airing for the last couple of weeks in alcohol

Clean Water Inorder

Tonga National Youth Congress, Disaster Reduction Risk and Environmental Division (D.R.R and Environment division) have started a new project 'Safe Drinking Water for children'. The project started out with the D.R.R team conducting a survey with primary school surrounding the Nuku'alofa district. There are 13 primary schools in the Nuku'alofa area, the result from the survey was devastating for with these 13 school only one school clear their water tank twice are year.

"When we were set out to do the program as part of the community services of the organization with clean water for drinking we didn't expect this result" said D.R.R officer Mosese Siuta, "clean water for drinking for our children

Now the D.R.R & Environmental divisions is putting on his new services out to these schools and clean their water tank so that students may have clean drinking water. "We are grateful that TNYC have come to help us in making sure that we have safe drinking water" said Hofoa principal "This is a much need service for our children every young child have the right to clean, safe, drinking water the most basic need for all human being.

"Our safe drinking water for children project have started with the primary school of Hofoa" said Mosese Siuta "The reason we started with Hofoa primary school is because they have a small water tank. Yes, we have done it and now students at Hofoa primary school now have access to clean and safe drinking water"

Safe Drinking Water for children project will begin with the Nuku'alofa area than from there to the western district as well as throughout Tongatapu than we will look at the secondary school's water tank said Mosese Siuta and Mause Halahala from TNYC DRR division.
